

# Meeting 19: Scrum 10

---

12 March 2024

## ATTENDEES

Tanvir Hasan, Muhammed Bilal, Hamza Sidat, Marium Nur, Amani Anderson, Abdul-Maalik Siddiqui

## AGENDA

- ☒ Review the progress of the team on assigned tasks for Sprint 4
  - Anjali is working on the user dashboard page
  - Amani has added functionalities for the error pages in the authentication page, investigating using states in React to handle users being logged in or not.
  - Bilal made updates to the summarization page. Added a word count feature and a limit to the word count to encourage users to get premium. Is working on a panel for premium users to access custom features.
  - Maalik tried to merge the front end with the backend but faces some issues
  - Hamza worked on storing/inserting, deleting, and retrieving user history on the backend part.
  - Tanvir worked on using an audio file to be converted into text. The process is very quick if the video already has captions. However, it can be very slow if there are no captions. Will use Amazon to test video to text conversions to compare the conversion speed.
  - Marium made the Login and Signup components fully responsive for all screen sizes.
- ☒ Update progress of tasks in Jira

## ACTION ITEMS FOR THE NEXT MEETING

- ☐ Review the progress of the team on Sprint 4 tasks
- ☐ Update the progress of tasks on Jira as needed
