

Meeting 12: Scrum Meeting 5

16 FEBRUARY 2024

ATTENDEES

Tanvir Hasan, Muhammed Bilal, Hamza Sidat, Marium Nur, Anjali Sabu, Abdul-Maalik Siddiqui, Amani Anderson

AGENDA

- ☒ Review the progress of the team on assigned tasks for Sprint 2
 - Amani merged the url-shortening-testing branch with User-Interface branch, and is working on testing the URL Shortener using the front end. Problem: The shortened URL is not redirecting to the original website but this was fixed later. He will continue looking into producing a new hash with the same link.
 - Amani shared updates on Postgres: stores URL input, output and URL stats.
 - Bilal is working on the summarization page: formatting, and allowing users to edit output.
 - Marium worked on the Feedback page and will continue working on making the Feedback page responsive, making buttons consistent across pages and the reviews section for the landing page.
 - Anjali worked on the Login, Forget Password and Create Account pages and will continue working on making the Hero component responsive and adding copy/feedback buttons for summarized output.
 - Tanvir and Hamza are working on summarization for a Youtube URL. They will continue testing APIs (maybe [pytube](#)) to convert YouTube audio to text.
 - Maalik will merge his branch with the User-Interface branch to make sure the text summarization is working with the front end and will add an export JSON functionality.
- ☒ Update and add tasks and subtasks on Jira as needed

ACTION ITEMS FOR THE NEXT MEETING

- ☐ Review the progress of the team on the remaining Sprint 2 tasks
- ☐ Update Jira according to the team's progress
- ☐ Start working on Progress Report 1
