

Meeting 15: Scrum Meeting 7

27 FEBRUARY 2024

ATTENDEES

Tanvir Hasan, Muhammed Bilal, Hamza Sidat, Marium Nur, Anjali Sabu, Amani Anderson

AGENDA

- ☒ Everyone has added their part of Progress Report 1
- ☒ Review the progress of the team on assigned tasks for Sprint 3
 - Amani: Investigated the options for database hosting on the cloud, and worked towards implementing a cloud based database so that all members can test the URL shortening functionality. ElephantSQL was chosen as a viable option, and tested with the Python implementation. Also investigated how to handle the server and client side functionalities of user sign up.
 - Bilal: Added some css configurations to the summarizer, mainly for the other summarization functionalities, such as Text, Website URLs, and Youtube URLs. On top of tha, some custom shadows were added and most of the elements were shifted around to give a blended & modern look to the UI.
 - Maalik implemented youtube video summarization and Json download of summarized content.
 - Hamza is looking for ways to implement history functionality for pro features and integrate it into existing system. Hamza will collaborate with Amani to learn about the database component that our team is using.
 - Tanvir tested the YouTube extraction with Maalik. It is working as intended. The extracted captions are being summarized well. He is currently working on timestamps on YouTube videos.
 - Marium completed the responsiveness for Header, Footer, Landing Page and Reviews Slides.
 - Anjali will continue working on responsiveness for the components that have been assigned to her.
- ☒ Update Jira tasks for Sprint 3
