COSC 4P02: SOFTWARE ENGINEERING 2

Meeting 28: Scrum Meeting 17

14 April 2024

ATTENDEES

Tanvir Hasan, Muhammed Bilal, Hamza Sidat, Marium Nur, Anjali Sabu, Amani Anderson, Abdul-Maalik Siddiqui

AGENDA

☑ Review the progress of the team on assigned tasks for Sprint 6
- Anjali is working on adding dark mode to the API access page and formatting the facebook login button css to match the google login button.
- Amani implemented the Facebook authentication capability in the frontend and backend. Added click count pulling capability to URL shortening API access. Improved login logic; disallowing the same email to be logged in with a method that they didn't use the first time. Added logic to disallow saving the summary with the input/output text fields being empty. Included API key fetching from backend to frontend.
- Bilal fixed a bug where sending a URL from the summarizer to the shortener caused the url text field in the shortener to keep that url value even when the window was refreshed. This resulted in the creation of functions for checking for reload navigation types, and once checked, setting the text field value to empty. Other fixes include refactoring dialog boxes to a call to a function, and fixing responsiveness of the Summarizer page on tablet sizes.
- Hamza integrated URL shortener with the front-end and merged it to the main branch.
- Tanvir will be starting working on testing the entire website as a user.
- Maalik worked on adding more specific backend code for different citation formats. Also made the export icon functional, which exports the summarizer inputs and output as a json. Maalik completed timestamp functionality and error handling.
- Marium added the Summarizer and URL Shortener API documentation along with a button to get the API key to the frontend. Will continue working on responsiveness for the API access component.
☑ Update Jira tasks for Sprint 6

ACTION ITEMS FOR THE NEXT MEETING

- ☐ Review the progress of the team on Sprint 6 tasks
- ☐ Update the progress of tasks on Jira as needed
