5 April 2024

ATTENDEES

Tanvir Hasan, Muhammed Bilal, Hamza Sidat, Marium Nur, Anjali Sabu, Amani Anderson, Adbul-Maalik Siddiqui

AGENDA

☑ Review the progress of the team on assigned tasks for Sprint 5
- Anjali completed dark mode for the summarizer.
- Amani implemented all error handling for the URL shortening. Added capability to save and load timestamp information in frontend and backend. Implemented API logic to allow for users to use the API.
- Bilal worked on creating additional elements for loading and saving the templates. He also worked on navigating the input url from the summarizer into the url shortener when the right button is clicked. Furthermore, he also worked on creating an error box by adjusting the default dialog box for further error handling.
- Maalik completed working on API Access, created a doc with API documentation and a Test API. The API documentation will be added to the frontend by Marium. Maalik added a loading dialog box to the summarizer. And completed error handling for all components of the summarizer.
- Hamza integrated a summarization history component with the backend and is currently working on a shortened URL history component and saving the history when the user clicks the 'Save Summary' button.
- Marium completed responsiveness for the history and settings component. Also made the sidebar collapsible to accommodate for smaller screen sizes.
- Tanvir is working on login with facebook
