COSC 4P02: SOFTWARE ENGINEERING 2

Meeting 11: Spring Planning Meeting

13 FEBRUARY 2024

ATTENDEES

Tanvir Hasan, Muhammed Bilal, Hamza Sidat, Marium Nur, Anjali Sabu, Adbul-Maalik Siddiqui, Amani Anderson

AGENDA

- ☑ Review the progress of the team on assigned tasks for Sprint 2
  - Amani - implemented a Flask based shortener and a no Flask shortener and worked on test cases for the url shorteners (all test cases passed).
  - Amani - worked on the database, creating a PostgreSQL database with a table for the shortened URLs and also the user information.
  - Bilal is working on linking pages and will commit to git a folder with different pages and is making sure state of component visibility across different pages. He is also working on editing and clearing the components of the Summarizer.
  - Marium completed the URL Shortener component.
  - Marium will continue working on the Feedback component and a Reviews section.
  - Maalik worked on integrating url text summarization and has faced an issue with some websites being made of too many tokens, and will resolve the issue by summarizing the website upto the token limit or ask the user to summarize a different website (depending on the group decision).
  - Tanvir and Hamza were successful in extracting the texts from any given website. The window still opens when trying it on the server computer. Hamza is trying to host it on a server so that further tests can be done and the window-open issue can be fixed.
  - Tanvir and Hamza are using Pytest to create test classes for their code
- ☑ Update and add tasks and subtasks on Jira as needed

ACTION ITEMS FOR THE NEXT MEETING

- ☐ Review the progress of the team on the remaining Sprint 2 tasks
- ☐ Update Jira according to team's progress
- ☐ Start working on Progress Report 1
