COSC 4P02: SOFTWARE ENGINEERING 2

Meeting 13: Scrum Meeting 5

20 FEBRUARY 2024

ATTENDEES

Tanvir Hasan, Muhammed Bilal, Hamza Sidat, Marium Nur, Anjali Sabu, Amani Anderson

AGENDA

☑ Review the progress of the team on assigned tasks for Sprint 2
- Tanvir and Hamza worked on test cases for text extraction from websites and text extraction from YouTube videos with the use of this [API](). Tanvir will continue working on test cases for different types of YouTube videos.
- Maalik will work on using the text extracted from YouTube videos & summarizing it.
- Amani worked on different hash for the same links. Also implemented a method to have a custom link. Included test cases for custom links.
- Anjali worked on fixing minor bugs, added copy and feedback buttons to the summarizer component, and made the Hero component responsive for smaller screen sizes. Will continue working on other components' responsiveness for larger screen sizes for the rest of the sprint.
- Bilal worked on the Summarizer component; adding the Summarize button, adding the functional delete/clear all button, making the output editable once summarization is complete, creating the customizable dialog box component, as well as fixing some minor bugs for the placement of some buttons.
- Marium worked on the User Reviews component for the HomePage, fixing bugs with the header and footer and will continue working on responsiveness for other components for larger screen sizes.
